

PIC 3200

PICTON MAHONEY FORTIFIED LONG SHORT ALTERNATIVE FUND – CLASS A AT A GLANCE

PICTON
MAHONEY

OCTOBER 2020

FUND OVERVIEW

The investment objective of the Fund is to provide consistent long-term capital appreciation with an attractive risk-adjusted rate of return by actively investing in a portfolio comprised of long and short equity securities. The Fund invests in Canadian, U.S. and International equities, aims for less net equity market exposure than traditional long-only strategies through the use of short positions, and is designed to dampen volatility and mitigate downside risk relative to typical long-biased portfolios heavily exposed to broad market movements.

This material is intended for use by Investment Advisors, including with their clients. There is no guarantee that a hedging strategy will be effective or achieve its intended effect. The use of derivatives or short selling carries several risks which may restrict a strategy in realizing its profits, limiting its losses, or, which cause a strategy to realize a loss. There may additional costs and expenses associated with the use of derivatives and short selling in a hedging strategy. Commissions, trailing commissions, management fees, performance fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Alternative funds can only be purchased through an IIROC registered dealer and are available only in those jurisdictions where they may be lawfully offered for sale.
